OUR MISSION STATEMENT TO OUR VALUED CLIENTS

Cortech strives to be the industry standard in quality, innovation and service. Our correctional specific and extreme use products offer THE maximum value to our customers and will always remain American made. The integrity with which our employees engage our business partners demonstrates our sincerity and commitment to long term relationships of exceedingly high satisfaction. Our products are guaranteed to contribute to the safety, humanity, productivity, and architectural significance in all applications.

The RazorBack Chair

The RazorBack chair's "Muscle-Back" leg design and "Structural Span" provide MAXIMUM STRENGTH. In addition, it has an EXTREME load capacity and the ergonomic low back design is more resistant to chair leaning or rocking – which can cause stress and failure in other chairs used in similar use environments.

FEATURES:

- Durable, one piece, injection molded design for increased strength. Constructed with high impact "no break" polypropylene. No steel or wood components
- Muscle-Back Legs include bolt down option
- Flame retardant (passes Cal 133). Test reports available upon request
- 1500 lb. static load
- Passes ASTM F1561-03
- Manufactured to ISO Quality Standards in the USA

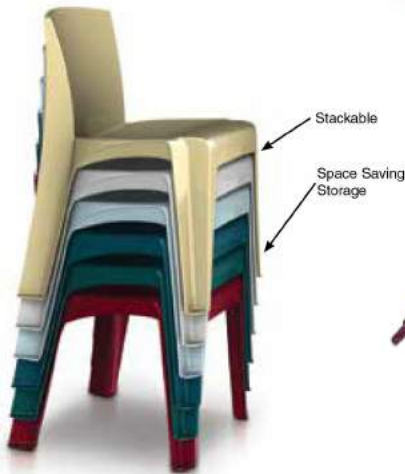

10 Year Warranty

146484BN	Brown
146484GN	Green
146484GY	Gray
146484SB	Slate Blue
146484SD	Sand

FEATURES:

- Durable, one piece, rotationally molded design for increased strength. Constructed of high impact "no break" polyethylene. No steel or wood components.
- **Lower Center of Gravity** improves stability and creates a smoother sway.
- **Seat Height of 17"** is an ergonomic standard.
- 1500 lb. static load.
- Resistant to stains. Easy to clean & maintain.
- Flame Retardant (passes Cal 133). Test reports available upon request.
- Manufactured to ISO Quality Standards in the USA.

Custom colors available upon request. Call Cortech for details.

The Sabre Chair

It has an EXTREME load capacity and designed to stand alone or be ganged together. The ergonomic design provides maximum comfort using rotational molding technology.

The Master Box

The ultimate in security and safety for inmate property. The Cortech Master Box™, The Toughest Locking Inmate Property Storage Box, is specifically designed to exceed all requirements of an inmate property storage box and system. The Master Box™ is stronger, lighter and more functional than other inmate property storage boxes. It is built with an integral combination dial lock and staff override key.

FEATURES:

- Integral tamper resistant combination dial lock comes with a master override key.
- Eliminates the need for dangerous padlocks.
- "Stack and Nest" Design - Stack property boxes with or without a lid without crushing the contents of the Master Box™.
- Box capacity 1.5 cu. ft. (Standard)*
- Box capacity 2.0 cu. ft. (Large)*
- Box capacity 3.0 cu. ft. (X-Large)*
- Radius design (rounded edges and corners) for maximum impact dispersion and resistance.
- Vertical radiused structural columns for maximum strength and impact resistance.
- Constructed with high impact "no break" polypropylene.
- Flame Retardant (Passes CAL133). Test results available upon request.
- Integral combination lock and hasp safely secures the sliding lid to the box.
- Custom colors available
- 1 year warranty
- Manufactured to ISO Quality Standards in the USA

The Barracuda Box

The Toughest Inmate Property Storage Box, is specifically designed to exceed all requirements of an inmate property storage box. The Barracuda Box is stronger, lighter and more functional than other inmate property storage boxes.

FEATURES:

- "Stack and Nest" Design - Stack property boxes with or without a lid without crushing the contents of the Barracuda Box. "Nest" property boxes inside one another by simply turning the empty box 180 degrees. Save on freight and save storage space.
- Each Barracuda Box is individually numbered for effective inmate ID and property control.
- Box capacity 1.5 (Regular), 2.0 cu. ft. (Large) and 3.0 cu. ft. (X-Large).
- Locking hasp on both sides of the box.
- Radius design (rounded edges and corners) for maximum impact dispersion and resistance.
- Vertical radiused structural columns for maximum strength and impact resistance.
- Constructed with high impact "no break" polypropylene.
- Flame Retardant (Passes CAL133). Test results available upon request.
- Manufactured to ISO Quality Standards in the USA.

The X-Tray®

The True One-Piece, seamless design has added features. Our X-TRAY has 5 compartments and 2 condiment compartments for bulk use (cost savings realized). The X-TRAY has tongue and groove sealed compartments for superior temperature control (process patented). The raised utensil slot adds delivery convenience. The X-TRAY utilizes 2" top to bottom of the feeding surface; and the most extreme feature - the tray weighs only 1.75 lbs. The durability of the X-TRAY is that of our Rock Tray, plus these extra features. For your X-Treme Tray needs, the X-TRAY is your solution.

THE ROCK® and THE ROCK® 2.0

The True One-Piece, seamless design insulated food trays, have been tested in correctional facilities with over 350 different menus. The five compartments have proven that they can handle any correctional meal, plus with the 2 additional condiment compartments, use of bulk condiment portions will yield a savings that can pay for the tray itself. The Rock® 2.0 features 2.25" deep compartments.

THE ROCK®

1.75H x 9.5W x 14.25L

THE ROCK® 2.0

2.25H x 9.5W x 14.25L

THE ROCK® AND THE ROCK® 2.0 FEATURE:

- Made from an insulated material, no internal insulation, which means it will not absorb water.
- The radius corners and softly beveled bottom make it easier to eat from and easier to clean.
- Manufactured with an FDA Approved Material.
- Carry a 10 Year Warranty Against Breakage, Cracking or Leaking.
- Manufactured to ISO Quality Standards in the USA.

The Chuckwagon®

An innovative, insulated, meal tray delivery cart. This cart is manufactured to the highest standards of expected abuse in a correctional environment.

The Chuckwagon, insulated food tray delivery cart, has a true one piece molded cavity with no seams, no welded walls and no adhesives. The walls of the cart are filled with high grade insulation for maximum thermal retention. When used with either of the Rock Food Trays or The X-Tray, the hot stays hot and the cold stays cold! The two insulated, hinge-less, sliding doors are easily removed for cleaning.

The Chuckwagon is specially formulated with high impact polyethylene for maximum strength and impact resistance. The Chuckwagon is also chemically resistant to hazardous fluids and stains. The two insulated sliding doors, which are easily removed for cleaning, can be locked closed. (Locking hasp optional)

3 Year
Warranty

59H x 31W x 56L

FEATURES:

- Accommodates any tray up to 9 1/2" x 14 1/2".
- Raised top edge surface safely holds more trays, beverage servers and wash racks.
- Push/Pull Handles for easy navigation.
- Optional tamperproof locking door latch system.
- Highest quality non-marring kingpin-less casters with quick change out design.
- NEW and improved door track system.
- Holds 102 X-Trays, 108 Rock 2.0 Trays or 132 Rock trays! Sold Separately from Cortech.
- One-piece sliding, foam filled doors. No dangerous hinges.
- Built-in wall bumpers.
- Manufactured to ISO Quality Standards in the USA.

The Tiger Series Security Wall Plates

They represent the finest in high abuse wiring device cover plates. All plates are designed and manufactured to eliminate costly replacement of essential electrical devices. The TP series is designed and built to hold up in the most extreme institutional and industrial environments. Injection molded in high strength Polycarbonate/Nylon Blend, the TP series will not rust or break. Our molding system eliminates the need for painting. All plates are oversized to accommodate mounting directly into any wall type. The oversized design allows for j-box opening and mounting surface imperfections.

FEATURES:

- High impact resistance/virtually unbreakable.
- Architectural, smudge resistant white.
- 100% rust proof.
- Protective side impact lip.
- Tamperproof fastening system.
- Smooth radius corners.
- Fast, easy installation.
- Patented product & process
- Manufactured to ISO Quality Standard in the USA.

*Wiring devices not included
